

Chapter 3

Thursday, July 13, 2023

4:24 PM

- Constructors set up instance variables
 - Getters and setters are used to access and set the variables
- Static and write code runs on startup
- Java Doc is the industry standard for java comments
- BigInteger and BigDecimal have all the Javadocs on the internet
- Package Access
 - Packages are useful when downloading code
- Design patterns
 - Mostly talked about in software engineering course
